## Cap Maison wine list principles

-  Interesting Natural and biodynamic wines that are made in small quantities by families and small wineries that share our passion for putting smiles on people's faces.
-  Wines that you generally won't find in your local wine merchant, supermarket or restaurant and that are all really delicious.
-  Wines at the top end that we have decided to put on a small cash margin and are consequently priced very sensibly, in some cases up to 50% less than you might find on a list elsewhere.
-  And we hope to welcome you soon for a fun, learning and inspiring wine tasting session at Cellar Maison...

# Organic and Biodynamic wines made Naturally

We at Cap Maison have a passion in creating unique gastronomic experiences and in vinous terms we import some very interesting wines that may open a whole new world. All of the organic and biodynamic wines made naturally listed below are low intervention wines that are made in small at times tiny quantities by families and small wineries that share our passion for putting smiles on people's faces. We hope to welcome you soon at Cellar Maison to discover more of this in our "Naturally" fun and educational wine tasting session.

### Orange Wines (made from white grapes ☺)

Have you ever wondered why in old master paintings the white wines in people's glasses don't look as translucent as the whites of today, and why they look more orange than anything else? This isn't a trick of the light or the patina of age, but perhaps because the Michelangelos of this world actually drank orange wines. – quoted from Natural Wine, Isabelle Legeron MW

### North-East Italy

515	Ribolla Gialla, Radikon, Venezia Giulia 2007	95	250
-----	--	----	-----

This unique “back to its roots” orange wine was macerated and fermented with its grape skins and pips where more flavors were extracted, mainly tannins but also a distinctive bright yellow colour, or even shades of rust is the result.

*We recommend enjoying some of these rather special wines to be paired with food. Our Chefs Table Menu would be great way exploring this intriguing world on natural wines.*

## Wine by the Glass Program

We have tried to seek out some interesting wines, which you may not have tried before, and please be aware that all wine from our list can be served “by the glass”. – simply purchase any bottle from the list, enjoy a glass (or two!), and we can preserve the remainder of your wine to be enjoyed again later, wherever you may choose to dine.
