Cap Maison wine list principles

Interesting Natural and biodynamic wines that are made in small quantities by families and small wineries, that share our passion for putting smiles on people's faces.

Wines that you generally will not find in your local wine merchant, supermarket or restaurant and that are all delicious.

Wines at the top end that we have decided to put on a small cash margin priced very sensibly, in some cases up to 50% less than you might find on a list elsewhere.

In addition, we hope to welcome you soon for a fun, learning and inspiring wine tasting session at Cellar Maison...

Orange Wines (made from white grapes !!)

Have you ever wondered why in old master paintings the white wines in people's glasses do not look as translucent as the whites of today, and why they look more orange than anything else does? This is not a trick of the light or the patina of age, but perhaps because the Michelangelo's of this world actually drank orange wines. – quoted from Natural Wine, Isabelle Legeron MW

North-East Italy

515	Ribolla Gialla, Radikon, Venezia Giulia 2007	95	250
-----	--	----	-----

This unique “back to its roots” orange wine was macerated and fermented with its grape skins and pips where more flavors were extracted, mainly tannins but also a distinctive bright yellow colour, or even shades of rust is the result.

We recommend enjoying some of these rather special wines, paired with food. Our Chefs Table Menu would be great way exploring this intriguing world on natural wines.

“I only drink champagne when I’m happy and when I’m sad.

Sometimes I drink when I’m alone

When I have company, I consider it obligatory.

I trifle with it if I’m not in a hurry and I drink it when I am, otherwise

I never touch the stuff unless I am thirsty” – Madame Lily Bollinger
